CAGR of 24.3% by 2030⁽⁷⁾

WHERE WI-FI 6 MAKES A DIFFERENCE

MULTI-DEVICE CONNECTION
leveraging MU-MIMO & OFDMA to connect more devices

FASTER CONNECTION, STRONGER SIGNAL, BETTER COVERAGE

REDUCED INTERFERENCES
in high Wi-Fi density areas through efficient spectrum use

IMPROVED BATTERY LIFE
of client devices with Wi-Fi radio 'sleep' mode (TWT)

STRONGER SECURITY
WPA3 protected Wi-Fi access

BACKWARDS COMPATIBILITY
with previous standards (Wi-Fi 5, 4, 3...)

IMPACT FOR NETWORK SERVICE PROVIDERS

COMPETITIVE WI-FI OFFER

High volumes driving prices down for premium Wi-Fi

ENHANCED UX AND SATISFACTION

Less churn, increased life-time client value

INCREASED BRAND EQUITY

A full experience without additional retail solutions
